Kids Club evening hours will be available for all HOA meetings moving forward. Reservations are required and hours will be from 6:30-8:30pm on meeting nights only.

A resident asked about mailbox requirements and replacements. The management team will be looking into less expensive and more readily available mailbox replacement options so that all residents will not be required to go through US Post.

A resident stated they were unhappy with snow removal in the shores. They were referred to the Cambridge Homes call center, as they are responsible for that particular area.

Community maps (with regards to landscaping) will be placed on the website once they are received.

Pool contracts have not yet been signed; the board of directors are still reviewing all bids.

At our next meeting, more information on pool season will be available.
